
Material Safety Data Sheet

SECTION 1 – IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product name: *Nappy Wash*
Recommended Use: Chlorinated Nappy Treatment / Washing powder
Supplier Name: *Blue Lion Supplies Pty. Ltd.*
Supplier Address: Fact. 9, 11 Havelock Road, BAYSWATER, VIC 3153
Supplier Contact: Jim Gillman
Telephone: (03) 9720 1577
Fax: (03) 9720 1799
Emergency Contact: Mobile: 0412 646 246

SECTION 2 – HAZARDS IDENTIFICATION

Statement of Hazardous Nature:

Hazard Classification: **Hazardous according to the criteria of Worksafe Australia.**

Hazard Category: N/A
Xi. Irritant.

Risk Phrases: R36/38 Irritating to eyes and skin.
R31 Contact with acids liberates toxic gas.

Safety Phrases: S2 Keep out of reach of children.
S22 Do not breathe dust.
S26 In case of contact with eyes, rinse immediately with water and seek medical advice.

Hazchem Code: N/A

ADG Classification: N/A

UN Number: N/A

Packing Group: N/A

Poisons Schedule: S5

Emergency Overview

Physical Description & colour: Free Flowing White Powder.

Odour: Chlorine Odour

Major Health Hazards: Irritant.

Potential Health Effects

Inhalation:

Short term exposure: Not normally an exposure route.

Long Term exposure: Chronic health effects not known.

Skin Contact:

Short term exposure: Product will cause irritation.

Long Term exposure: Likely to cause contact dermatitis.

Eye Contact:

Short term exposure: This product may be irritating to eyes, but is unlikely to cause anything more than mild, transient discomfort.

Long Term exposure: No data.

Ingestion:

Short term exposure: Swallowing strong solutions may cause Nausea, vomiting and may irritate mouth, oesophagus and stomach.

Long Term exposure: No data for health effects associated with long term ingestion.

Carcinogen Status: **NOHSC:** *No significant ingredient is classified as carcinogenic by NOHSC.*

NTP: *No significant ingredient is classified as carcinogenic by NTP.*

IARC: *No significant ingredient is classified as carcinogenic to humans.*

SECTION 3 – COMPOSITION & INFORMATION ON INGREDIENTS

Ingredients	CAS No	Proportion	TWA (mg/m ³)	STEL (mg/m ³)
Anionic Detergents	Proprietary	7-12	not set	not set
Stabilised Chlorine	Proprietary	7-12	not set	not set
Alkali Salts	Proprietary	60-70	not set	not set
Soil suspending	Proprietary	10-15	not set	not set

KEY: Proportion, (wt %) - V HIGH >60, HIGH 30 - 60, MED 10 -29, LOW 1-9, V LOW <1

Note: The exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

The TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that should not be exceeded for more than 15 minutes and should not be repeated for more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL.

SECTION 4 – FIRST AID MEASURES

NOTE: You should phone The Poisons Information Centre on 13 1126 if you feel that you may have been poisoned or irritated by this product. Have this MSDS with you when you call.

Inhalation: First aid is not generally required. If in doubt, contact The Poisons Information Centre or a doctor.

Skin Contact: If irritation does occur, flush with water for several minutes or until chemical is removed. Apply moisturising cream to affected area.

Eye Contact: While holding eyelid(s) open, flush eye(s) with water until the product is removed or irritation has ceased. Obtain medical advice if irritation becomes painful or lasts more than several minutes.

Ingestion: Rinse mouth with water. Seek medical advice.

SECTION 5 – FIRE FIGHTING MEASURES

Fire and Explosion Hazards: There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. This product is likely to decompose only after heating to dryness, followed by further strong heating.

Fire decomposition products from this product may be toxic if inhaled.

Extinguishing Media: Not Combustible. Use extinguishing media suited to burning materials.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade.

Flash point: Does not burn.

Upper Flammability Limit: Does not burn.

Lower Flammability Limit: Does not burn.

Auto ignition temperature: Not applicable - does not burn.

Flammability Class: Does not burn.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Emergency Procedures: Minor spills do not require special clean up measures or emergency procedures. In the event of a major spill, prevent spillage from entering drains or waterways. If in doubt call the EPA. As a minimum, wear overalls, goggles and gloves during clean up. If mists are present in the cleanup area, use a respirator.

Methods & Materials for Containment & Clean Up: Stop leak if safe to do so, and contain spill.

Absorb onto sand or other suitable absorbent. If spill is large, bund area to stop material spreading to drains or waterways. Sweep up and collect product into labeled containers for disposal or salvage.

After spills wash area, preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. This material may be suitable for approved landfill. Ensure legality of disposal by consulting regulations prior to disposal. Launder protective clothing before re-use.

Advise laundry of nature of contamination when sending contaminated clothing to laundry.

SECTION 7 – HANDLING AND STORAGE

Precautions for Safe Handling: Keep direct skin contact by this product to a minimum when handling concentrated solutions. As a minimum, wear protective gloves. If there is a significant chance that mists are likely to build up in the cleanup area, we recommend that you use a respirator. Usually, no respirator is necessary when using this product. The measures detailed below under "Storage" should be followed during handling in order to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

Conditions for Safe Storage: Store in the closed original container in a cool environment out of direct sunlight. Make sure that the product does not come into contact with substances listed under "Incompatible Materials" in Section 10.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Product Exposure Limits:	TWA (mg/m³)	STEL (mg/m³) Not set
---------------------------------	-------------------------------	--

Ventilation: No special ventilation requirements are normally necessary for this product. Ensure adequate ventilation when handling this product. Keep dust level to minimum when clearing spills.

Eye Protection: Eye protection is recommended when this product is being handled in concentrate form.

Skin Protection: We suggest that you routinely avoid contact with all chemical products and therefore wear overalls and vinyl gloves when handling this product in concentrate form.

Protective Material Types: We suggest that protective clothing should be impervious to water and be made from rubber, PVC or vinyl.

Respirator: Usually, no respirator is necessary when using this product. However, if you have any doubts consult the Australian Standard mentioned above.

The following Australian Standards will provide general advice regarding safety equipment:

*Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Industrial Clothing: **AS2919**,*

*Industrial Eye Protection: **AS1336 & AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.*

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical Description & Colour:	Free Flowing White Powder.
Odour:	Chlorine Odour
pH (as supplied):	Not Applicable
Vapour Pressure:	Not Determined
Boiling Point:	Not Determined
Freezing/Melting Point:	Not Determined
Specific Gravity:	1.3 g/cm ³ .
Viscosity:	Not Determined
Volatile organic compounds content:	Not Determined
Percent volatile:	0.4 %
Solubility:	Miscible with water in all proportions.

Additional information

<i>Flash point and method of detecting flash point:</i>	Not flammable.
<i>Flame propagation or burning rate of solid materials:</i>	Not flammable.
<i>Properties of both flammable and non-flammable materials that may initiate or uniquely contribute to the intensity of a fire (e.g. Class 4 or Class 5):</i>	Not flammable.
<i>Reactions that release flammable gases or vapours:</i>	None expected.
<i>Fast or intensely burning characteristics:</i>	None expected. Not flammable.
<i>Non-flammables that could contribute unusual hazards to a fire:</i>	Does not contain strong oxidants or reductants. Does not contain peroxides.
<i>Ignition temperature:</i>	Not determined. Not flammable.

SECTION 10 – STABILITY AND REACTIVITY

Chemical Stability:	Chemically stable.
Conditions to Avoid:	Store in the closed original container in a cool place, out of direct sunlight.
Incompatible Material:	None known.
Hazardous Decomposition Products:	This product is likely to decompose only when heated to dryness. Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke are likely to be produced when heated to dryness.
Hazardous Reactions:	None known.
Polymerisation:	This product will NOT undergo polymerisation.

SECTION 11 – TOXICOLOGICAL INFORMATION**Health effects from the likely routes of exposure:**

Inhalation:	This route of exposure is unlikely under normal circumstances. If overexposure occurs move exposed person to fresh air. Flush mouth and nasal passage with water repeatedly. Seek medical attention if needed.
Skin:	Will de-fat upper dermal layers.
Eye:	Will cause irritation/discomfort.
Ingestion:	May result in irritation to the gastrointestinal tract.
Target Organs:	There is no data to hand indicating any particular health effects on target organs.

Classification of Hazardous Ingredients

No ingredient mentioned in the List of Designated Hazardous Substances is present in this product at hazardous concentrations.

SECTION 12 – ECOLOGICAL INFORMATION

Major ingredients are biodegradable and will not accumulate in soil or water or cause long term problems.

SECTION 13 – DISPOSAL CONSIDERATIONS

Disposal methods & containers: Containers should be emptied as completely as practical before disposal. If possible, recycle containers either in-house or send to recycle company. If this is not practical, send to a commercial waste disposal site. This product should be suitable for landfill. Check with Waste Disposal Authority before sending. Do NOT dispose into sewers or waterways.

SECTION 14 – TRANSPORT INFORMATION

UN Number:	None allocated.
UN Shipping Name:	None allocated.
Class & Subsidiary risk:	None allocated. Not Hazardous.
Packing Group:	None allocated.
Special Precautions for user:	None.
Hazchem code:	None allocated. Not Hazardous
ADG Code:	Not classified as a Dangerous Good. No special transport conditions are necessary unless required by other regulations.

SECTION 15 – REGULATORY INFORMATION

All of the significant ingredients in this formulation are to be found in the AICS Database.

SECTION 16 – OTHER INFORMATION

This MSDS contains only safety-related information. For other data, refer to product literature.

Date of preparation or last revision of the MSDS: 10 December 2010

THIS MSDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD INFORMATION OF THE PRODUCT AND HOW TO SAFELY USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS MSDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE.

IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT THIS COMPANY SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL FROM OUR SUPPLIERS.
