LAUNDRY POWDER

Page 1 of 4

1. Identification

GHS Product identifier Laundry Powder
Company Name Blue Lion Supplies Pty. Ltd.
Address Fact. 3, 29 Barry Street, Bayswater, VICTORIA 3153
Telephone (03) 9738 3900
Contact Leigh Gillman
Recommended use of the chemical and restrictions on use Machine laundry powder.
Other Names None
Other Information Emergency contact: Mobile: 0447 719 987

2. Hazard Identification

Classified as Hazardous according to the criteria of WorkSafe Australia.

GHS classification of the substance/mixture Skin Corrosion Category 1B
Specific organ exposure toxicity (single exposure) Category 3

Signal Word (s) WARNING

Hazard Statement(s) H314 Causes severe skin burns and eye damage
H335 May cause respiratory irritation
Xi Irritant

Risk phrases R36 Irritating to eyes
R37 Irritating to respiratory system

Precautionary statement - Prevention

P260 - Do not breathe dust
P264 - Wash exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P280 - Wear protective gloves, protective clothing, eye protection, face protection

Response P301+P330+P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P303+P361+P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing
P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor.
P330 - If swallowed, rinse mouth
P363 - Wash contaminated clothing before reuse
Storage P405 - Store locked up
P501 - Dispose of contents/container to comply with local, state and federal regulations

3. Composition/information on ingredients

<u>Hazardous ingredients</u>	<u>CAS no.</u>	<u>Proportion</u>	<u>Hazard symbol</u>	<u>Risk phrase</u>
Sodium met silicate	6834-92-0	MED	C	R 34 R37
Sodium carbonate	497-19-8	VHIGH	Xi	R32
Sodium perborate	10486-00-7	LOW		R36

KEY: Proportion, (wt %) - V HIGH >60, HIGH 30 - 60, MED 10 -29, LOW 1-9, V LOW <1

Non hazardous ingredients to 100%

4. First-aid measures

Ingestion:	Rinse mouth thoroughly with water immediately. Give water to drink. DO NOT induce vomiting. If vomiting occurs, have victim lean forward to reduce risk of aspiration. If vomiting occurs give further water to achieve effective dilution. Seek immediate medical assistance.
Skin:	Wash affected areas with copious quantities of water immediately. Remove contaminated clothing and wash before re-use. Seek urgent medical assistance. Cover skin with an emollient.
Eye contact	Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. Seek immediate medical assistance. If available, a neutral saline solution may be used to flush the contaminated eye/s an additional 30 minutes.
First Aid Facilities	Maintain eyewash fountain and safety shower in work area.
Advice to Doctor	Treat symptomatically and as for alkaline material.
Other Information	For advice, contact the National Poisons Information Centre (Phone Australia 13 11 26_ New Zealand 0800 764 766) or a doctor.

5. Fire-fighting measures

Hazards from Combustion	When subject to high heat may produce smoke, carbon monoxide and carbon dioxide.
Suitable extinguishing media	Use extinguishing media most appropriate for the surrounding fire. Small fire: Use dry chemical, CO ₂ or water spray. Large fire: Use water spray, fog or foam If safe to do so, move undamaged containers from the fire area. Cool containers with flooding quantities of water until well after the fire is out.
Specific hazards arising from the chemical with fire	Material does not burn. Fire or heat will produce irritating, poisonous and/or corrosive gases. protection. Structural firefighter's uniform is NOT effective for these materials.

6. Accidental release measures

Personal Precautions	Avoid contact with skin and eyes. Do not breathe dust or mist.
Personal Protection	Gloves. Face-shield. Dust cloud production: compressed air/oxygen apparatus. Wear protective clothing specified for normal operations (see Section 8)
Clean-up Methods- Large spills	Avoid generating dust. Carefully scoop up or shovel up product and loosely seal in properly labelled drums for disposal in an area approved by local authority by-laws. Wash area down with excess water to remove residual material.
Small spills	Sweep up contaminated product and wash area down with excess water.
Environmental Precautions	Avoid release to the environment.

7. Handling and storage

Precautions for Safe Handling	Remove contaminated clothing immediately. Clean contaminated clothing. Use corrosion proof equipment. Avoid contact with skin and eyes. Avoid formation of dust.
Conditions for safe storage, including any Incompatibilities	Store in a cool, dry place. Keep containers securely sealed. Keep dry. Keep containers closed at all times. Avoid any dust build up. This material is a Scheduled Poison S5 and must be stored, maintained and used in accordance with the relevant regulations.

8. Exposure controls/personal protection

There are no occupational exposure standards set for this product or ingredients in this product. However, Exposure Standard for nuisance dusts:

	STEL	TWA	
	mg/m ³	ppm	mg/m ³
Nuisance dusts			10
Respirable dusts			5

Other exposure Information

The exposure value at the TWA is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week.

Appropriate engineering Controls

In industrial situations maintain the concentrations values below the TWA. This may be achieved by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods.

Personal Protective Equipment

Avoid skin and eyes contact. Avoid creating dusts – irritating to respiratory system. Wear personal protective equipment outlined below when handling this product.

Respiratory Protection

Where ventilation is not adequate, respiratory protection may be required. Avoid breathing dust, vapours or mists. Respiratory protection should comply with AS 1716 - Respiratory Protective Devices and be selected in accordance with AS 1715 - Selection, Use and Maintenance of Respiratory Protective Devices. Filter capacity and respirator type depends on exposure levels. In event of emergency or planned entry into unknown concentrations a positive pressure, full-face piece SCBA should be used. If respiratory protection is required; institute a complete respiratory protection program including selection, fit testing, training, maintenance and inspection.

Eye Protection

The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate. Must comply with Australian Standards AS 1337 and be selected and used in accordance with AS 1336.

Hand Protection

Avoid skin contact when removing gloves from hands, do not touch the gloves outer surface. Dispose of gloves as hazardous waste.

Hand protection should comply with AS 2161, Occupational protective gloves - Selection, use and maintenance.

Recommendation: Nitrile rubber.

Footwear

Safety boots in industrial situations is advisory, foot protection should comply with AS 2210, Occupational protective footwear - Guide to selection, care and use.

Body Protection

Clean clothing or protective clothing should be worn, preferably with an apron. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.

Hygiene Measures

Do not eat, drink or smoke in work areas. Wash hands thoroughly after handling this material. Maintain good housekeeping.

9. Physical and chemical properties

Form / Colour / Odour	Fine blue, free flowing powder with a eucalyptus odour
Solubility	Soluble in water
Bulk Density	1.15g/cm ³
pH (1% soln)	10 - 11
Solubility in water (g/L)	Complete

10. Stability and reactivity

Stability	Stable under normal conditions of use and storage.
Products to Avoid	May react violently with strong acids.
Hazardous Polymerization	Will not occur.

11. Toxicological Information

No adverse health effects expected if the product is handled in accordance with this Safety data Sheet and the product label. Symptoms that may arise if the product is mishandled and overexposure occurs are:

Ingestion	Swallowing can result in nausea, vomiting and abdominal pain.
Eye contact	A severe eye irritant. Contamination of eyes can result in permanent injury. Corrosive to eyes; contact can cause cornea burns.
Skin contact	Repeated or prolonged skin contact may lead to irritant contact dermatitis. Contact with solutions may result in irritation.
Inhalation	Inhalation of dust will result in respiratory irritation.

LAUNDRY POWDER

Page 4 of 4

Long term effects No information available for this product.
**Acute toxicity /
Chronic toxicity** No LD50 data available for the product.

12. Ecological information

**Persistence and
Degradability** Avoid contaminating waterways.
Mobility in soil No data available.
Other adverse effects No data available.

13. Disposal considerations

Disposal Considerations Reuse reclaimed material if possible. Carefully dissolve in water and greatly dilute, or neutralise with dilute acid and flush to drain with copious amounts of water. Otherwise, place in plastic container prior to disposing through normal commercial refuse system. Refer to State Land Waste Management Authority. Normally suitable for disposal at approved land waste site.

14. Transport information

Transport Information Not classified a Dangerous Good for Road or Rail according to the Australian Dangerous Goods code.
U.N. Number None allocated
UN proper shipping name None allocated
Transport hazard class(es) None allocated
Hazchem Code None allocated
Packing Group None allocated

15. Regulatory information

Regulatory Information Listed in the Australian Inventory of Chemical Substances (AICS).
Poisons Schedule 5

16. Other Information

Date of preparation or last revision of SDS 03/09/2024
